

Hamam Alsharari

Software Engineer

0502572025 | alshararyhamam@gmail.com | Khobar, Saudi Arabia | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Software Engineering graduate with hands-on experience at Saudi Aramco and an intensive full-stack development bootcamp with the Saudi Digital Academy and General Assembly. Skilled in building and deploying full-stack web applications with React, Django REST Framework, and PostgreSQL. Quick to learn new tools, collaborates well in agile teams, and delivers clean, working software on schedule.

SKILLS

Programming Languages – Python, JavaScript, HTML, CSS, SQL

Frameworks & Libraries – React, Django, Django REST Framework

Databases & Storage – PostgreSQL, MySQL

Development Tools – Git, GitHub, Docker, VS Code

Methodologies & Soft Skills – Agile, Scrum, REST APIs, JWT Authentication, Unit Testing, Problem-Solving

PROFESSIONAL EXPERIENCE

Front-End Developer Intern, Aramco | Dammam, Saudi Arabia | June 2024 - Aug 2024

- Built and enhanced 3 interactive views within a Finance Matrix Dashboard for the Distribution Department using HTML, CSS, and JavaScript, improving data accessibility and visualization for the Planning & Accountability Unit.
- Translated management requirements into functional dashboard features while collaborating with another trainee in an agile environment.
- Applied professional development workflows and code review practices across 2 sprint cycles, earning a formal recommendation from the department supervisor.

Bootcamp Trainee, Saudi Digital Academy (SDA) | Riyadh, Saudi Arabia | Aug 2025 - Nov 2025

- Completed a 500+ hour, 12-week full-stack development program covering Python, JavaScript, React, Django REST Framework, and PostgreSQL.
- Built and deployed multiple full-stack applications implementing CRUD functionality, JWT authentication, and RESTful APIs.
- Collaborated in agile teams using Git-based workflows to plan, build, and ship a capstone project on schedule.

PROJECTS

Blockchain Recruitment System | React, Django, Python, MySQL

- Built a full-stack recruitment platform using blockchain to ensure transparent, tamper-proof candidate data storage.
- Integrated machine learning models to analyze applicant profiles and support hiring decisions.
- Designed the front end in React and the API layer in Django to support an end-to-end recruitment workflow.

ExpenseTracker | React, Django REST Framework, PostgreSQL, Docker | [GitHub](#)

- Built a personal finance application with JWT authentication for secure expense and payment tracking.
- Implemented a RESTful API with 10+ endpoints backed by PostgreSQL, supporting full CRUD functionality for financial records.
- Containerized the application with Docker across 2 services (frontend and backend) to simplify deployment and improve portability.

EDUCATION

General Assembly & Saudi Digital Academy | Riyadh, Saudi Arabia | Aug 2025 - Nov 2025

Software Development using Python

Intensive 500+ hour full-stack bootcamp focused on React, Django, PostgreSQL, OOP principles, MVC frameworks, and agile methodologies. Developed portfolio projects including full-stack applications with authentication and deployment.

Jouf University | Al-Jouf, Saudi Arabia | Graduated: May 2025

Bachelor's Degree in Software Engineering

GPA: 4.41 / 5.00 — Second Class Honors

CERTIFICATIONS

- HackerRank — Software Engineer Certification (2026)
- HackerRank — REST API (Intermediate) Certification (2026)
- Python Institute — PCEP: Certified Entry-Level Python Programmer (2026)
- SCRUMstudy — Scrum Fundamentals Certified (SFC) (2025)
- IBM SkillsBuild — Web Development Fundamentals (2025)
- Cisco Networking Academy — CCNA: Introduction to Networks (2024)
- Oracle Academy — Database Foundations (2024)
- Coursera (EIT Digital) — Software Architecture for IoT (2023)
